

A WEEK IN ROMANIA

Travel diary

From 24th to 29th March

FIRST DAY (24th)

We arrived in Bucharest and we met our partners' families. Later, in the evening, we went to an Italian restaurant and after the dinner we went for a sightseeing tour by car in the centre of Bucharest. We saw the most important monuments by night. There were so many lights..a fantastic view!

We noticed that the places were very big and cleaned.

SECOND DAY (25th)

In the morning we went to school and we presented our project, our town and our country, Italy. The main theme of this project was “Water”. We illustrated the activities we had worked on and after that we listened to the presentations of our partners’ countries.

At the end of all that we visited the school building and its rooms. We noticed that during the school lessons students can sit at the table all together and in the same building they follow different courses. We think that this is nice, a good way to get to know and socialize with all the students from other classes.

THIRD DAY (26th)

On the third day we went to Aleea Sinaia. Here we visited two beautiful and original castles and an aquarium. We had lunch in a fantastic and very big park. During the trip we talked with some Swedish guys and it was exciting.

We spent the evening with our partners' family.

FOURTH DAY (27th)

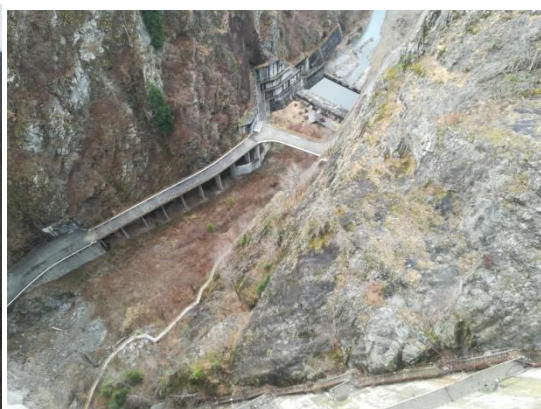

On the fourth day we went to Transilvania. To get there we travelled for three and a half hours by bus. We went to see a dam, it was very big and we found the story of the place very interesting.

It was a very very cold day! We wanted to see Dracula's castle but it rained a lot...

After lunch we went to visit a monastery where there were a lot of paintings and near the monastery there was a fountain.

The journey was very long but it was funny because we sang all the time!

FIFTH DAY (28th)

On the fifth day, in the morning, we visited a museum where there were the old, typical houses of Romanian people. We stayed at school for the whole afternoon and we worked all together divided in groups. We drew and painted some fantastic pictures.

At the end of the school day, we were given the certificates of attendance to the Romanian projects.

It was a fantastic experience because we had fun together with our partners but it was also very interesting because we learnt a lot of new things, we experienced new habits, we met new friends from abroad.
